The Situation There Complicated—A Mexican Guard Is Killed.

BISBEE, ARIZ., September 15.—Another chapter has been added to the cowboy-Mexican affairs on the border, this episode causing the killing of a Mexican officer by the guards for assisting in liberating Franco, an American cowboy arrested at the time of the killing of Clayton.

The day after the killing of the guards by American cowboys, the Mexican officers in command pressed into service all the available Mexicans in Naco as guards. Among these were Jerrado Acedo, born of Mexican parents, but living in Tucson, Arizona, thereby making him an American. He protested, but was made to do guard duty at the jail in which Franco was confined. Acedo, being a brother-in-law of Franco, early yesterday, liberated the prisoner and the two escaped to this place.

The Mexican officer who was on guard with Acedo and was asleep when the escape was made, was shot to death by the Mexican guards as he tried to escape while being taken to court for trial on a charge of negligence. Ramsey has been released by the authorities. A telephone message from Naco says things look serious. Troops of the Ninth cavalry, colored, are patrolling the line on this side while the Mexican guards are on the other.

The Window Glass Trust.

PITTSBURG, Pa., Sept. 15.—A meeting of the window glass manufacturers interested in the formation of a trust is in session here. It is said the negotiations will be either carried through or abandoned finally at this meeting. Many options expire today. The proposition is to organize a company under the old name of the American Window Glass company with a capitalization of \$20,000,000.
